1. Google Sync is only supported on iPhone OS versions 3.0 and above. You can check your current version by going to **Settings > General > About > Version**. To upgrade, follow the instructions at <http://www.apple.com/iphone/softwareupdate/>. Please upgrade to iPhone OS 3.0 before setting up Google Sync.
2. Perform a sync with iTunes to ensure that Contacts and Calendars from your iPhone are backed up to your computer. Learn more about backing up your [Contacts and Calendars](#).

If you want to sync only the **My Contacts** group, you must choose to **Delete Existing Contacts** during the Google Sync install when prompted. If you choose to keep existing contacts, it will sync the contents of the "All Contacts" group instead.

You've set up Google Sync for your iPhone. Synchronization will begin automatically if you have Push enabled on your phone. You can also open the Mail, Calendar or Contacts app and wait a few seconds to start a sync.

Next [choose which calendars to sync](#), if you'd like to enable multiple calendars.
